

# AIRCRAFT INTERIORS & MRO MIDDLE EAST

UNITED ARAB EMIRATES – DUBAI  
25TH – 26TH FEBRUARY 2020

IN PARTNERSHIP WITH:

# BUSINESS FRANCE

[www.businessfrance.fr](http://www.businessfrance.fr)

Business France is the national agency supporting the international development of the French economy, responsible for fostering export growth by French businesses, as well as promoting and facilitating international investment in France.

It promotes France's companies, business image and nationwide attractiveness as an investment location, and also runs the VIE international internship program. Business France has 1,500 personnel, both in France and in 58 countries throughout the world, who work with a network of partners.

Since January 2019, as part of the reform of the state support system for exports, Business France has given private partners responsibility for supporting French SMEs and mid-size companies in the following markets: Belgium, Hungary, Morocco, Norway, the Philippines and Singapore.

For further information, please visit:

CS Group, a designer, integrator & operator of mission-critical systems with expertise in a number of major economic sectors, such as: defense and security, space, aeronautics and energy.

With €202 million in revenues and 2,005 employees worldwide, CS is an established provider, acknowledged by major customers for its expertise and commitment of service.

DIGINEXT, a CS Group company, has experience in the development and support of aircraft simulation systems, and notably maintenance trainers. Since the company built the very first Virtual Maintenance Trainer for AIRBUS in 2001, the methodology and tools have been continuously moving forward, gathering experience from the production of many other maintenance training systems. DIGINEXT has signed several contracts for training and simulation tools such as Super Puma Helicopter, Tiger Helicopter, C130H Military Heavy Transport aircraft, Special Forces land vehicles, Military land vehicles....

We are proud to offer our solution, called INSCAPE VTS (Virtual Training Suite):

- Highly customizable COTS. Provides an outstanding compromise between a specific development and a pre-existing solution.
- A software suite dedicated to create end-to-end virtual training solutions.

**Style&Design** is a Transportation Design studio. From creative design to 3D movies and prototypes productions, we support all stages of the design process. Our motto: "Making the Desirable Possible".

With **Perceived Quality** as a design philosophy, we developed **BenchmarkQ**. An Objective & Contextualized decision-making tool/design guide for the Airlines and the Aircraft manufacturers, with the Scoring of Business Class seat Perceived Quality including key dimensions analysis. To raise the quality of seating products, thus to enhance the Passenger Experience.

We created **Our Business Class Seat "Moments"** Our aim was to design a game changer concept, revisiting passenger experience with the ability to enjoy every moments of the flight. To achieve this, we developed a holistic approach - In the sense that our work combined cabin configuration exploration, seat architecture design, ergonomics and development of versatile functions.
